Delta PT Ultra Fix plugs are specifically designed for fixing Delta PT, AT800 and 3mm Membranes

Delta PT Ultra Fix plugs offer a tailor made maximum hold for Delta membrane installation. Delta PT Ultra Fix plugs are uniquely designed using high impact polymers. When used with either sealing grommets or sealing rope allow for a watertight, self-sealing finish. Delta PT Ultra Fix are hammered into pre-drilled holes using a rubber mallet offering a full continuous waterproof installation.

PRODUCT DATA SHEET
DELTA PT ULTRA FIX

Product Code: DMS050 (with grommets)

DMS051 (without grommets)

BENEFITS

- Suitable for Fixing Delta PT Membranes AT 800 and 3mm Membranes to substrates
- Developed to provide a good key for plasters and renders
- Has a centrally located internal shank which can accommodate a 5.5mm diameter / size 12 screw for installation of pipe clips, cable tracks and lining systems
- Provides a watertight seal
- Can be used as an alternative to Delta Plugs and Qwik Seal Plugs
- Provides additional fixing point

SPECIFICATION

- BS 8102:2009 Type C Drained Protection

ASSOCIATED PRODUCTS

- Delta PT/PT Lath/PT 3mm Membranes
- Delta MS 500 Membrane
- Delta Tape
- Delta Fleece tape
- Delta Cornerstrip
- Delta PT Plugs
